GOSPEL MEDITATION

The Ascension of the Lord

When I was a kid, my parents took me to the circus, and I was mesmerized by the acrobats. I recall one show in which the trapeze artists would swoop down just above the ground and then launch up into the air, flinging their bodies seemingly to the top of the tent, all at dizzying speeds. It wasn't just their height but their dangerous proximity to the ground that thrilled me.

Perhaps that's a little how St. Mark wants us to feel as he describes the Ascension of Jesus. He tells us that Jesus **"sat down at table with them"** and then, just a few lines later, **"he ascended into heaven and took his seat at the right hand of God."** He dies, he rises! He sits down, he ascends! What do these divine acrobatics teach us?

The depth and height on display are a show of his love for us. When Jesus **"sat down"** he **"upbraided them for their lack of faith and stubbornness of heart."** He dangerously swoops down into our lowly place of fragmentation, disbelief, and death. When he ascends, he confirms their preaching with signs of powerful healing. The height of heaven is the place from which God brings wholeness, faith, and life. The point is the Ascension of Jesus is not about his departure. It is about the feat by which he unites the heavens and the earth, the highest and the lowest.

We are meant to relive this spiritually dizzying experience in every Mass, when Jesus sits down with us at his Eucharistic table and then offers himself up to the Father with and for us. Ladies and gentlemen, boys and girls: welcome to the great tent of the Church! Feast your eyes on the divine and human acrobat whose saving feat is the great thrill of our lives.

-Father John Muir ©LPI

More Buildings and Grounds News

We are currently working on replacing the lights around our church and rectory. Rather than replace with the current exterior bullhead full and half-moon exterior wall lights (the round lights with half covers), each of which cost \$475 to replace, we intend to use spotlights that should cover the same area.

Our initial plan was to begin replacing five bullheads in the courtyard area between the church and rectory and continue replacing the remaining 32 such lights over the next few years. The total cost of the project would come to \$16,000. The bullheads are more decorative than efficient, so we have come up with the new plan to use spotlights covering the same area. They will be placed in such a way so as not to disturb our neighbors. An example of the type of spotlights are located on the west side of the church lighting the walkway between Affinito Hall and the church. We will use the CalOES grant to cover as much of the lighting as we can.

Finally, over the summer will be using our CalOES grant to install more cardkey locks around the campus. Presently, we use a cardkey system for access to Affinito Hall, and it is working quite well. We will add cardkey readers and locks on St John's Hall, meeting rooms in the church office and strategically add card readers and locks to our school. The key cards will provide better access to buildings and also resolve the issue of keys being loaned out and not returned, causing the parish to rekey locks and replace keys.

Please contact Deacon Michael if you have any questions. You may contact him at deacon@olaparish.net.
